**NATEC International, Inc. Virtual Training Platform Option Immediately Available/ COVID-19**

Dear NATEC Valued-Clients,

In light of the recent events concerning the COVID-19, NATEC International, Inc. has been spending countless hours to find a solution to support our clients' training requirements while assuring protection of our students, employees, and community. After endless hours over the last two weeks, **NATEC International, Inc. is excited to announce we have partnered with CDPH and CalOSHA to offer virtual training effective immediately!**

NATEC International, Inc. is the first (and only to-date) approved Accredited CDPH Lead training provider to offer live, virtual accredited lead training. In addition, as of today, we have partnered with Cal OSHA to provide the accredited Asbestos Refresher courses, via virtual training. We have further expanded these options into many of our other training courses as well.

We at NATEC International, Inc. understand the pressing urgency to protect our students, employees, instructors, and loved ones' health. We have been working around the clock to offer create solutions to our community to do so. It is with great honor and privilege we can now extend this to our clients.

These programs are available for our publicly held classes, as well as for your private classes.

Below is a highlighted version of what NATEC is offering effective immediately (Monday):

---

*Lead Accredited Training*

---

**LEAD CLASSES ELIGIBLE FOR VIRTUAL TRAINING: ALL**

**IN-PERSON EXAM OR DEMONSTRATION REQUIRED? YES.**

# NATEC International, Inc.

National Association of Training and Environmental Consulting  
Anaheim, CA | Oakland, CA | Marianas & Guam  
Asbestos • Lead • Mold • HAZWOPER

Final Exam and hands-on must be done in person per CDPH. To reduce the risk of spreading the COVID-19, NATEC International, Inc. has partnered with the CDPH to max our in-person demonstration class size to 5. NATEC will schedule an exam / hands-on date and time for you to assure a maximum of 5 students per session. Students will be given 8 feet plus in between each other during exam and practical.

---

## *Asbestos Accredited Training*

---
